

Diagram illustrating the cross-section of a road structure. The structure consists of three layers:

- Warstwa ścierna AC 11S (4 cm)
- Warstwa wiążąca AC 16W (4 cm)
- Istniejąca nawierzchnia asfaltowa

The diagram shows a central roadway (Jezdnia) with a width of 3,5m, flanked by shoulders (Pobocze) with a width of 0,75m each. The cross-slopes are indicated as 6% for the shoulders and 2% for the roadway.
